REPUBLICANUS PĀRT

Respected All,

I am addressing you as a symbol of justice, truth, and democracy, which died out in Serbia under the dictatorial and criminal regime of Aleksandar Vučić. As a politician who was brutally abducted, arrested, and poisoned in prison last year and directed by Aleksandar Vučić, the Chinese Mafia, the Serbian Prosecutor's Office, and the Serbian Secret Police, I would like to point out that my case was not isolated in terms of organized political killings in Serbia. Therefore, as a significant European and world segment of the protection of human rights, speech, and freedom, I ask you to react urgently in the case of my attempted murder as well as in the case of murder and concealment of the same, my longtime political associate Vladimir Cvijan. Vladimir Cvijan was found dead in the Danube River on January 5, 2018, in Belgrade. Vladimir Cvijan was quickly cremated and buried by the criminal Vučić regime without his last name on the tombstone. Vladimir Cvijan was the first dissident of the Aleksandar Vučić regime. Vladimir Cvijan was a lawyer, Secretary-General of former Serbian President Boris Tadic, and a close associate of today's President Aleksandar Vucic. I think that in the 21st century, it is inadmissible to remain silent and not sanction this kind of dictatorial and criminal government that Aleksandar Vučić has been exercising in Serbia for years. Accordingly, I expect from you significant assistance and protection of civil and human rights in Serbia, because there are no such institutions in Serbia that should do that and oppose the arbitrariness of a dictator. The fear that Aleksandar Vučić is spreading in Serbia has killed every hope, faith in salvation, and every normal future of a democratic country. For all additional information, details, and evidence regarding my assassination attempt and regarding the murder of Vladimir Cvijan, I am at your disposal with great pleasure.

Nikola Sandulović
President of the Republican Party in Serbia
